Smarter  
on the road  
together

Cost-effective, sustainable, fast and healthy: take the bike and be smarter on the road! Take part in the e-bike try-out campaign and notice the difference.

Try it now!

We are seeing it increasingly often: people who no longer take the car or public transport to make the trip to work but who go by e-bike (on occasion). And it's understandable, you are often at work faster, can save travelling costs and it is healthier too!

We would like you to experience those benefits. Perhaps you have been thinking of buying an e-bike but haven't got round to it yet. Maybe you would like to leave the car more often, but you haven't found a good alternative yet. In short, if in doubt, try it out! We are offering you the chance to try out

an e-bike, e-cargo bike of speed pedelec. For one week, you can use it to commute to and from work. Everything is arranged: from any assistance if you break down on the way to a support desk you can contact if you have any questions. Register [here](https://ebikeproberen.nl) and you will soon be whistling your way to work on a bike!

[ebikeproberen.nl](https://ebikeproberen.nl)

The e-bike try-out campaign is an initiative of Brainport Bereikbaar in collaboration with Ons Brabant Fietst and facilitated by De Boom en het Meer
